Critical Intelligence Problems Committee

DCI/ICS 83-3842
CIPCM-04
12 August 1983

MEMORANDUM FOR: Critical Intelligence Problems Committee (CIPC)

FROM:

[Redacted]

Executive Secretary

25X1

SUBJECT:

Minutes of the Fourth CIPC Meeting, 25 July 1983
(1000-1100 Hours) [Redacted]

25X1

MINUTES OF THE MEETING

The Chairman, [Redacted] convened the meeting by welcoming those who were attending for the first time:

25X1

- [Redacted] Alternate for Mr. Robert E. Rich, DD/NSA;
- MGEN James C. Pfautz, ACSI, USAF, Member, replacing MGEN Marks;
- COL Eleas A. Cozanitis, Alternate for MGEN William E. Odom, ACSI, Army; and
- BGEN Lloyd W. Smith, Director of Intelligence, US Marine Corps, Member, replacing Mr. John J. Guenther. [Redacted]

25X1

25X1

The Chairman noted that there were two items on the agenda: (1) a recommendation for the establishment of an Electromagnetic Intelligence (EMINT) Committee, and (2) a recommendation for forming a working group to review the US Intelligence Collection Posture on China. The Chairman also noted that one hour had been allotted to these issues and that he would like to maintain this schedule. [Redacted]

Other Business

The Chairman next provided status reports on two projects which are now under way in the committee: the narcotics and the cruise missile studies.

- Narcotics: The Chairman reported that in the upcoming months the Narcotics Working Group will be meeting regularly. He noted that there has been much turmoil in producing the narcotics study. We have worked in coordination with the Vice President's Office and the Intelligence and Law Enforcement Communities. There have been some difficult legal considerations. Justice is being pressed to decide just how far intelligence can go in this area. He also mentioned that the working group is developing collection guidance for DIA at their request. He concluded by stating that the narcotics study is expected to come to fruition late in August. []
- Cruise Missile Study: The Chairman reported that the cruise missile study is nearing completion and announced that he felt the August meeting of the CIPC would be devoted to considering the cruise missile paper. He stated that the working group has produced a fairly substantive document. The working group expects to have the paper ready for CIPC coordination in mid-August. []
- Mr. Briggs pointed out the need for the members to receive their meeting material as early as practicable, preferably at least one week in advance of the meeting date. He said that the time allowed at present was inadequate. For example, he received his material for today's meeting on Friday evening and the Committee was to meet on Monday morning. He acknowledged that the DCI registry got the material on Wednesday afternoon, and concluded by stating that there needs to be much more preparation time allowed, particularly when dealing with issues as detailed and as complex as those considered at the current meeting. []

SECRET

The Chairman responded that we were very conscious of the need for advanced distribution of meeting papers, that we were working on this problem very, very hard and that it continues to be our objective to provide the principals their material at least a week in advance. []

25X1

Miss Page, DD/ICS, observed that the channels through which our normally highly classified materials must move are very slow and cumbersome. As a result additional time was required--perhaps several days--for the material to pass through such channels. It was agreed that materials would be distributed as much in advance of the meeting date as possible and, if necesasry, special couriers would be used. []

25X1

The Chairman adjourned the meeting at 1100 hours. []

25X1

Summary of Action Items

- The Committee approved the establishment, on a trial basis, of a MASINT subcommittee under the auspices of the SIGINT Committee.
- Approved the terminology "MASINT" vice "EMINT."
- Concurred in the development of a study TOR that will address specific intelligence gaps on China. []

25X1

CIPC-Related Meetings

The next monthly Committee Meeting is tentatively scheduled for 1000 hours, 29 August. []

25X1

The Narcotics Working Group is scheduled to meet on 5 August. []

25X1

The Cruise Missile Working Group is scheduled to meet weekly during the month of August in order to finalize its report []
